PATIENT RIGHTS AND RESPONSIBILITIES

Patient rights and responsibilities were established with the expectation that observance of these rights will contribute to more effective patient care and greater satisfaction for the patient, family, physician, and facility caring for the patient. Patients shall have the following rights without regard to age, race, sex, national origin, religion, culture, physical handicap, personal values or belief systems.

THE PATIENT HAS THE RIGHT TO:

- Receive the care necessary to help regain or maintain his or her maximum state of health and, if necessary cope with death.
- Expect personnel who care for the patient to be friendly, considerate, respectful and qualified through education and experience and perform the services for which they are responsible with the highest quality of service.
- Expect full recognition of individuality, including privacy in treatment and care. In addition, all communications and records will be kept confidential.

- Be fully informed of the scope of services available at the facility, provisions for after hours and emergency care and related fees for services rendered.
- Be a participant in decisions regarding the intensity and scope of treatment. If the patient is unable to participate in those decisions, the patient's designated representative or other legally designated person shall exercise the patient's rights.
- Refuse treatment to the extent permitted by law and be informed of the medical consequences of such refusal. The patient accepts responsibility for his or her actions should he or she refuse treatment or not follow the instructions of the physician or facility.
